

Grace by Fred Cox / Rory Graham / Simon Aldred

Verse 1

Said I loved you without hesitation
So easy for you to break my foolish heart
Now I wonder if you ever speak my name
Will I always be defined by my mistakes?

Chorus

In the eyes of a saint I'm a stranger
We're all trying to find a way
At the death of every darkness there's a morning
Though we all try
We all try
We're all one step from grace

Verse 2

I made **myself believe**
There was no **fight left in me**
But redemption doesn't fall down at your feet
In the **half light**
We raised a **hand to my defeat**
And I watched the world fall
And I rebuilt it piece by piece

Chorus

In the eyes of a saint I'm a stranger
We're all trying to find a way
At the death of every darkness there's a morning
Though we all try
We all try
We're all one step from grace

Bridge

Altos / Sops Ahhhhhhhhhhh
I wonder why we give up on love
When it's always within reach
(**Altos / Sops** Ahhhhhh) You and I, **we suffered this enough**
We all try
We all try
We're all one step from grace

Chorus

In the eyes of a saint I'm a stranger
We're all trying to find a way
At the death of every darkness there's a morning
Though we all try
We all try
We're all one step from grace
